Product Presentation

Application

- Needle flame tester is the latest release of the flaming test equipment, with imports of touch-screen controller and instrument.
- New test circuit, stable performance, reliable, simple and easy to operate. wide range of parameter adjustment. Apply to the test standards IEC60695,GB5169, etc.

Feature

- Glass windows
- Full import control components.
- Wireless remote control timing device.
- LCD Display or touch-screen control system
- Advanced temperature control ang measuremtnt system.

Standards

IEC60695 . GB5169

Key Specification

Model NO.	GT-MC35G
After glow time	0-99h99m99.9s
Continue burning time	0-99h99m99.9s
Flame height	5-45mm (Can be adjustment)
Burn time	0-99.99s (Can be adjustment)
Temp range	0-1200degree (Can be adjustment)
Outside dimension	1120x600x1020mm (L x W x H)
After flame time resolution	0.1s
After glow time resolution	0.1s
Flame Temp. Resolution	1degree
